PLANNING GUIDE · RECLAIMED NEW YORK BRICK

Planning a reclaimed brick project

Real New York brick, chosen and ordered so the finished job looks right.

× PATCHY One pallet at a time

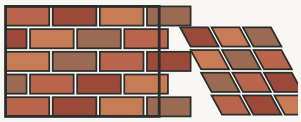

✓ CALM Pulled from several

Character, not chaos

Every reclaimed brick has a past: chips, old mortar, kiln marks. That is the look you are paying for.

Lay pallets one after another and the wall shows **bands and patches**. Blend as you go and it reads rich and even.

1 Use and location

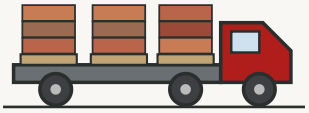

- Inside or out? Wall or floor?
- Floors: flat no-frog bricks or thin floor tile
- Bump bricks for walls, not underfoot

2 Order a blend

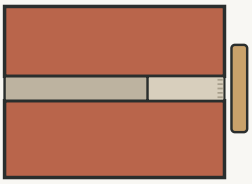

- Mix tones: reds with a touch of dark
- Your mason pulls from several pallets at once

3 Stock and shipping

- Sorted by color, so you can match it later
- Add to cart with your address for a shipping quote

4 The right mason

- Patient with size and color shifts
- Lay full bricks in breathable NHL 3.5 lime
